(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

This Notice of Intention covers the drilling of a well known as the Joe's Valley Unit No. 5-X, a skidded well location from the Original Well No. 5 - Joe's Valley Unit. We propose to drill this well with Rotary Drilling Tools to the approximate Total Depth of 7500 feet. To test specifically the Ferron Sand formation for Commerical Oil and Gas Production, The approximate top of Ferron Sand is expected @ 7200 feet. Casing Program as follows:

550 feet of 13-3/8"OD 8rd.thd., 48# H-40 API Smls., Casing R-2 w/ST&C. Casing to be cemented from shoe to surface with approximately 350 sacks of cement.

Cement to circulate to surface.

Re: Well No. 5-X NE, Se, NW,  
Sec 19, T-15S, R-6E, SLM  
Sanpete County, Utah

In answer to your letter and request dated June 8, 1959 regarding the above named well in Sanpete County, Utah.

Please find enclosed two (2) copies of the Schlumberger Electrical Log, Run No. 1, dated September 25, 1957 from 5112 to 7248. This is the only log run to date on the subject well.

The driller's log covering this well is not complete, as the drilling operations on this well has been temporarily suspended with the total depth at 8135 feet.

A proposed development program covering the Joe's Valley Unit is being prepared by our Dallas office, which will affect the suspended operations on this well.

Upon completion of this well a driller's log will be filed with your office.

Yours very truly,

Gentlemen:

Your attention is directed to Rule C-22, General Rules and Regulations and Rules of Practice and Procedure. Said rule provides for the submitting of a report of operations and well status report to the Oil and Gas Conservation Commission. The last communication, regarding this well, we received from you was June 18, 1959.

Your compliance with said rule is hereby requested.

We are enclosing copies of Form OGCC-4, "Report of Operations and Well Status Report", for completion and return. For your convenience, Rule C-22 has been printed on the back of said form, Federal Form 9-329, Lessee's Monthly Report of Operations, may be used in lieu of Form OGCC-4.

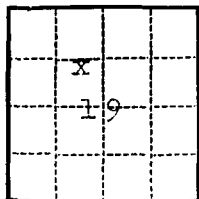

Please note that if two legible copies, carbon or otherwise, of the report filed monthly with the United States Geological Survey of Form 9-329, are also filed each month with this Commission, it will be deemed compliance with Rule C-22, paragraphs 1, 2, 3, and 4.
